Levillard,

MEMORANDUM

O . : Dr. A. W. Spears

FROM : Dr. C. I. Lewis CAL Director, Quality Control

SUBJECT: TCRC Analytical Methods Committee

I do not feel we should sit idly by and let this committee avoid solving the annaytical problems that exist in our industry. As a strong state of the strong state of the strong presentation that will lead to solutions to some of our analytical problems and give greater value to TCRC presentations.

I was able to sell them on the idea of the g.c. nicotine collaborative study and I believe we can sell them on the idea of making assignments.

The attached list is potential areas of analytical concern. Please we should get definite assignments. I will prepare myself and make as sell for these specific essignments. I will prepare myself and make the self of these specific essignments.
